# Dear Colleague,

You've reached another critical milestone in your professional development journey. Choosing where to apply for your residency will be one of the most important decisions of your career. It will accelerate your learning and shape the way you practice for many years to come.

At OhioHealth, we want you to have the information you need to make a confident decision. Though this document provides a general overview of our pharmacy residency program, we will always make ourselves available to answer your questions with greater detail. It's our goal for you to complete your evaluation process with a clear understanding of what it's like to be a pharmacy resident at OhioHealth.

Our programs are American Society of Health-System Pharmacists-accredited, and we continually refine them to provide you with a relevant environment to hone your clinical skills and discover leadership capabilities. We are proud of our pharmacy residency programs' long-standing history and national reputation, the experience and tenure of our leadership and preceptor teams, the thriving careers of residents we have mentored, and our ability to offer employment opportunities within the OhioHealth system to many of our residents. But our proudest achievement is helping you reach your goals, because we believe when you succeed, we all succeed.

As you research the many residency programs available to you, I encourage you to be curious and thoughtful in exploring our OhioHealth pharmacy residency programs. If you believe OhioHealth is the right home for you to take the next step in your professional development, we welcome your application. And if you would like to speak to someone who can offer you greater insight about our program, please contact us at [PharmacyResidency@OhioHealth.com](mailto:PharmacyResidency@OhioHealth.com).

Good luck in your pursuit and welcome to residency!

Sincerely,

A handwritten signature in blue ink, appearing to read 'Charles McCluskey III'.

Charles McCluskey III, PharmD, MBA, BCPS  
System Vice President of Pharmacy Services

## Residency at OhioHealth

You will be guided by clinical experts with years of experience in hands-on instruction. Our health system has been named as one of Fortune 100 Best Companies to Work For 14 of the past 15 years, providing an exceptional learning and working environment.

Training at OhioHealth prepares you for any practice setting, through opportunities only a large system like ours can offer. From a Level I Trauma Center in the heart of downtown Columbus to smaller, rural community hospitals, OhioHealth exposes you to the complete spectrum of pharmacy care.

### A HISTORY OF EXCELLENCE

- + OhioHealth Grant Medical Center has offered a pharmacy residency program for more than 55 years.
- + OhioHealth Riverside Methodist Hospital has trained residents for more than 50 years.
- + Newer residencies at OhioHealth Doctors Hospital, OhioHealth Marion General Hospital were established in 2016, and OhioHealth Mansfield Hospital in 2018.

# Our Culture of Continuous Improvement

All of our residency programs are firmly rooted in American Society of Health-System Pharmacy (ASHP) accreditation standards, with the goal of maintaining a continual state of accreditation readiness.

We regularly evaluate and improve our alignment with ASHP through self-assessment, leadership team review, comments and guidance from ASHP accreditation surveyors and, most importantly, the feedback of our residents and graduates.

## HOW YOU BENEFIT

- + You have a voice in enhancing our programs.
- + When new needs arise, we expand or refine the scope of our programs to support your growth.
- + You have the flexibility to design and execute rotations outside of OhioHealth to round out the specific experience you desire.
- + Our leadership team and preceptors share a commitment to learning, and constantly pursue development opportunities to better serve you.

# OhioHealth Doctors Hospital

**PGY1 PHARMACY RESIDENCY**

OhioHealth Doctors Hospital is a 213-bed, tertiary care teaching hospital located in Columbus, Ohio.

It operates one of the largest osteopathic medical training programs in the United States, allowing for opportunities to interact within a multidisciplinary, layered learning environment. The pharmacy residency program at Doctors Hospital was established in 2016 and creates an opportunity for resident involvement in the further development of the program, consistent with system goals and objectives.

## OUR PATIENT POPULATION

- + Anticoagulation
- + Cardiology
- + Emergency medicine
- + General medicine
- + General surgery
- + Infectious disease
- + Medical intensive care
- + Medication safety
- + Nutrition support
- + Orthopedics
- + Palliative care
- + Women's health

# OhioHealth Grant Medical Center

**PGY1 PHARMACY RESIDENCY, PGY2 EMERGENCY MEDICINE,  
PGY1/PGY2 HEALTH SYSTEM PHARMACY ADMINISTRATION AND LEADERSHIP**

Located in downtown Columbus, OhioHealth Grant Medical Center is a 640-bed teaching hospital and the busiest Level I Trauma Center in the state.

Pharmacy services is integrated with multidisciplinary teams and prides itself on the high caliber of residency graduates. The Grant Medical Center program has operated for more than 55 years and is recognized by American Society of Health-System Pharmacy (ASHP) as one of 12 programs offering continuous training since 1963.

## OUR PATIENT POPULATION

- + Anticoagulation

# PGY2 Ambulatory Care

The PGY2 Ambulatory Care residency program at OhioHealth Riverside Methodist Hospital is tailored to fulfill residents' individual interests and goals within ASHP accreditation standards. The focus of this residency is to train individuals to develop strong clinical and program management skills through providing care to ambulatory patients in a variety of primary care and specialty clinic settings across our health care system. The resident will participate in both longitudinal and block experiences that will allow them to see multiple practice structures and collaborative practice agreements as well as establish individual relationships with patients and other health care professionals. The resident will gain additional in-depth experience with research and leadership from a system level. There are several elective options and project opportunities to allow residents to pursue individual interests.

# PGY2 Critical Care

PGY2 Critical Care Residency at OhioHealth Riverside Methodist Hospital offers extensive and diverse learning opportunities. It has a primary focus in multiple ICU settings, including two 31-bed Medical Intensive Care Units (MICU1, MICU2), a 16-bed Surgical Intensive Care Unit, and a 32-bed Neuroscience Intensive Care Unit. Collaboration with multiple critical care physician groups to improve the care of critical patients through daily intervention, as well as global changes made from the committee level, enhance the experiential and educational opportunities for residents.

# PGY2 Emergency Medicine

The Emergency Medicine Residency Program at OhioHealth Grant Medical Center offers vast training experiences that can be tailored to the interest of each resident. Averaging greater than 80,000 annual visits, with more than a quarter of those patients being admitted, the Grant Medical Center Emergency Department contains 65 beds, including a 3-bed trauma and resuscitation bay, in addition to a closed behavioral health unit. Grant Medical Center is a Level 1 Trauma Center that averages 6,000 trauma patients annually. Pharmacists, in addition to medication history technicians, offer dedicated 24/7 coverage in the Emergency Department. Residents will participate directly in patient care emergencies, including cardiac arrest; trauma response; stroke, STEMI, and sepsis alerts; airway emergencies; and perioperative emergencies. Additional experiences, some of which are off-site, include disaster preparedness, critical care, free-standing emergency medicine, pediatrics emergency medicine, trauma, and toxicology.

# PGY2 Oncology

PGY2 Oncology residency training at OhioHealth Riverside Methodist Hospital is tailored to fulfill residents' individual interests and goals within ASHP accreditation standards. The focus of this residency is to train individuals to lead oncology practice change and practice as clinical experts in the field of oncology pharmacy. The program allows residents to gain experiences with a diverse cancer population in a variety of practice settings. Residents actively participate in staff development programs and system-level decision-making. Longitudinal ambulatory care training enables residents to establish individual relationships with patients and other healthcare professionals. There are several elective options and project opportunities, allowing residents to pursue individual interests.

# PGY2 Pain and Palliative Care Pharmacy Residency

Graduates of the Pain and Palliative Care PGY2 Pharmacy Residency program at OhioHealth will be equipped to practice independently as a specialist in pain and/or palliative care. In addition to clinical development, the pharmacist will participate in research and education specific to pain and palliative care. Core rotations will focus on acute and chronic pain management, palliative care, hospice, addiction medicine and leadership. Additional electives are available to customize the residency. Additionally, the pharmacy resident will train alongside the palliative care medical fellows, this allows for the resident to participate in interdisciplinary management from the start of the program. An optional teaching certificate can be pursued through a collaboration with The Ohio State University. The PGY2 Pain and Palliative Care Pharmacy Residency will foster independent pain and palliative pharmacy clinicians to 1) enhance existing pain and palliative care pharmacy services, 2) launch new pain and palliative pharmacy services at community hospitals, and/or 3) lead pain and palliative pharmacy initiatives for an institution or industry as part of a multi-disciplinary team. The team of preceptors and pharmacy leaders at OhioHealth will guide the resident to independently initiate, optimize, and create medication therapy management for patients across the continuum of care. Additionally, the PGY2 in pain and palliative care will be trained, coached, and fostered as an independent clinician able to accomplish the competencies, goals, and objectives set forth by ASHP.

# PGY1/PGY2/MS Health System Pharmacy Administration and Leadership

The 24-month Health System Pharmacy Administration and Leadership (HSPAL) residency program at OhioHealth Grant Medical Center, OhioHealth Riverside Methodist Hospital and OhioHealth Mansfield Hospital is tailored to fulfill residents' individual interests and goals within ASHP accreditation standards. Residents will complete academic training at The Ohio State University College of Pharmacy in years one and two, while participating in both clinical and administrative rotations.

# PGY1/PGY2/MS Health System Pharmacy Administration and Leadership

Didactic work at The Ohio State University affords opportunities for networking with the Ohio State alumni and Latiolais Leadership Program. Residents will gain exposure to a true health system environment as part of the OhioHealth care system, which is comprised of 12 hospitals and 200 ambulatory sites. This exposure to health system management differentiates our residency program. HSPAL residents are active members of the leadership team and pursue activities that will collectively impact the practice of pharmacy. We believe this experience creates the greatest opportunity for residents to make a significant impact after their residency in the environment of health system pharmacy and accountable care organization.

# ASHP Program Purpose Statements

## PGY1 PROGRAM PURPOSE

The PGY1 pharmacy residency program builds on Doctor of Pharmacy (PharmD) education and outcomes to contribute to the development of clinical pharmacists who are responsible for medication-related care, eligible for board certification, and eligible for postgraduate year two (PGY2) pharmacy residency training.

## PGY2 PROGRAM PURPOSE

PGY2 pharmacy residency programs build on Doctor of Pharmacy (PharmD) education and PGY1 pharmacy residency programs to contribute to the development of clinical pharmacists in specialized areas of practice. PGY2 residencies also provide residents with opportunities to function independently as practitioners in patient care and advanced practice settings. Residents who successfully complete an accredited PGY2 pharmacy residency are prepared for advanced patient care, academic, or other specialized positions, along with board certification, if available.

## Development Opportunities and Resident Responsibilities

- + Precept Introductory Pharmacy Practice Experience (IPPE) and Advanced Pharmacy Practice Experience (APPE) students while on rotations.
- + Give back to the community through meaningful service projects. (20 hours per year)
- + Build relationships with your colleagues during off-site team-building activities.
- + Develop professional skills through projects, presentations and publications.
- + Get involved in health system committees, councils and teams.
- + Participate in optional teaching certificate available through various colleges of pharmacy.
- + Practice weekend coverage in a variety of settings, including centralized and decentralized staffing, warfarin and pharmacokinetic dosing, and clinical rounding. (PGY1 every other weekend, PGY2 every fourth weekend).
- + Actively participate in national and local professional pharmacy organizations.
- + Opportunity to attend conferences, including the ASHP Leadership Conference, Vizient, ASHP Midyear Clinical Meeting, Research Residency Conference, Ohio Pharmacy Residency Conference, Ohio Society of Health-Systems Pharmacists Division Days and Annual Meeting, and other program-specific conferences.

## Admission Requirements\*

OhioHealth pharmacy residency programs are available to individuals who meet the Ohio Licensure requirements. Consideration for admission requires:

- + Eligibility for Ohio licensure
- + Letter of intent
- + Curriculum vitae
- + Three standard reference forms in PhORCAS
- + Official college transcripts

Please submit all application materials via Pharmacy Online Residency Centralized Application Service (PhORCAS). Deadline for receipt of these materials to be considered for an on-site interview is January 1, by 11:59 PM For PGY2 residency programs (Ambulatory Care, Critical Care, Emergency Medicine, Oncology, Pain and Palliative Care), a PGY1 Residency or equivalent experience is required.

*\*OhioHealth Pharmacy Residencies are unable to offer employment to foreign nationals under a nonimmigrant work visa program.*
